M-34 DESIGN CHART

GORES: 16 (VERTICAL COLUMNS)

PANELS: A-LPB (HORIZONTAL ROWS)

7399 Newman Blvd. Dexter, MI
Phone: 866.423.6178 or 734.426.5525
Email: digital@cameronballoons.com
www.cameronballoons.com

For horizontally based patterns such as spirals or vertical stripes the number of colors used must divide evenly into 16, color sequences that do not divide evenly into 16 will result in an asymmetric color pattern.

Any significant artwork such as corporate logos should be placed at the equator (Panel F) and be centered to a gore. The height of any significant artwork/logos should not exceed Panel H.

Horizontal logos/artwork should be 5 gores wide and can repeat two times on either the left (L) & right (R) sides or the front (F) & back (B) of the balloon.

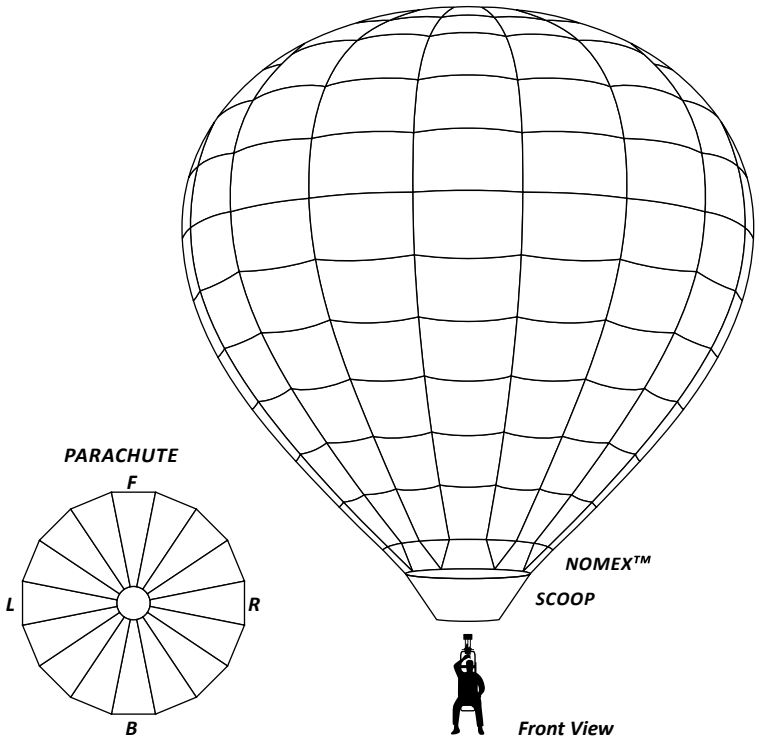
Vertical logos/artwork should be 3 or 5 gores wide and can repeat two times on either the left (L) & right (R) sides or the front (F) & back (B) of the balloon.

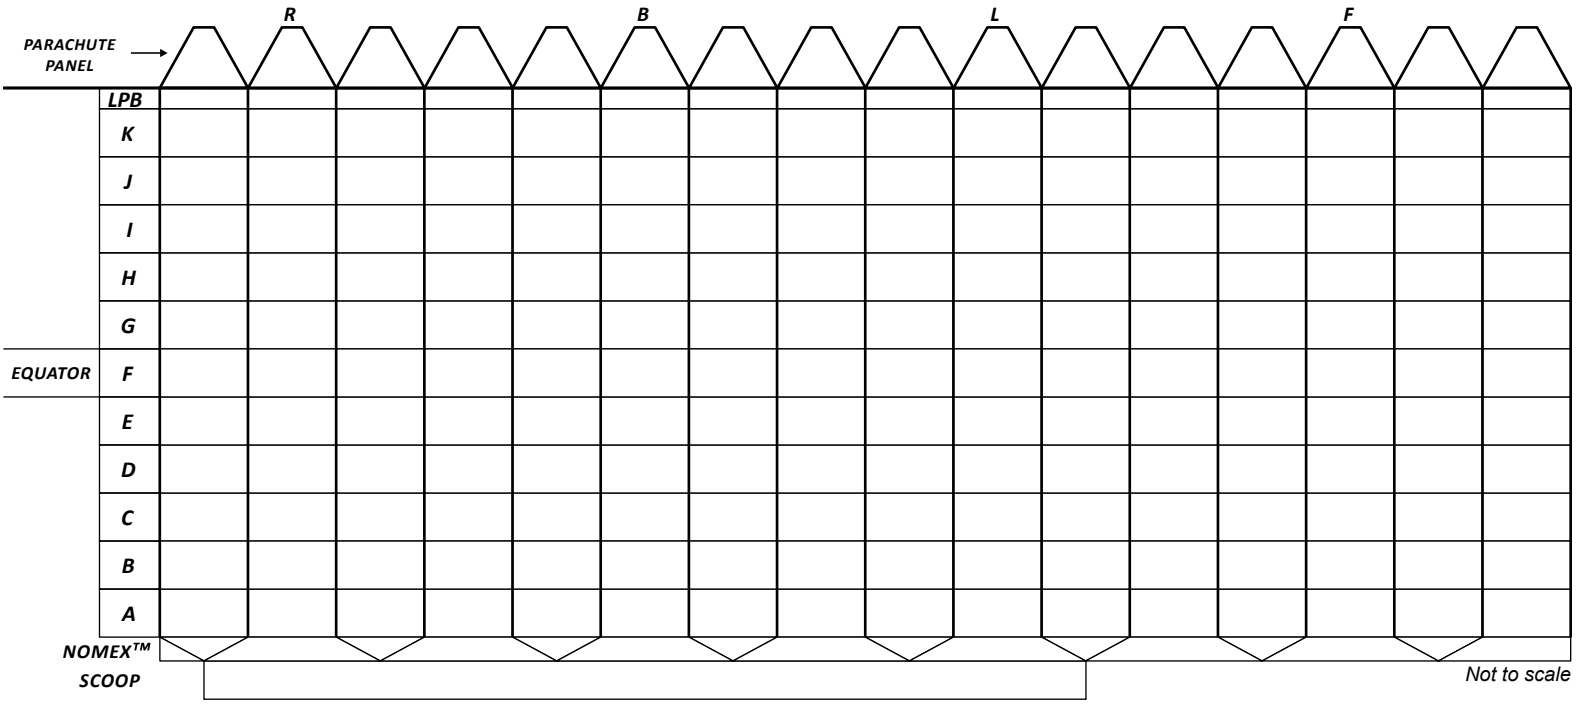
Simple artwork such as stars or special cuts maybe placed anywhere in Panels A-K and should repeat evenly around the balloon.

The parachute is constructed from 16 gores that radiate from a center patch, each gore contains one panel.

There is no extra charge for changes of fabric color at any of the lines shown on the chart if the colors are from the standard Cameron range, which is listed below.

The standard Cameron Nomex™ colors are also listed below and should only be used in the Nomex™ base panel and Scoop.





Due to the differences in computer monitors, color pencils, markers, and other media PLEASE mark the colors used in your design.

STANDARD FABRIC COLORS
